Greetings, my name is Bianca.

Before learning about the patches, I would suffer with debilitating migraine headaches that would go on non-stop for 3 to 4 days straight, every month for over 10 years.

When dealing with a migraine, I would not be able to handle any loud noises or lights.

My husband Juan-Carlos and my little ones would have to be very quiet and keep our home as dark as possible.

It was very challenging for everyone in our family because everyone would be affected.

My family would usually have to leave our home in order to avoid making any noise or having to turn on any lights inside our home.

I was not able to enjoy quality time with my family when dealing with the migraine headaches.

Even though I have a decent amount of tolerance for pain, my quality of life was impacted.

I do my best to eat properly,
I do my best to be well hydrated.

I would use a neck massaging machine in order to help relieve any tension.

I would use a pain relief ointment.

I would use a device that would squeeze my head.

I would use a scalp massager.

I would drink coffee because it appeared to help sometimes.

When it got really terrible, I even resorted to over the counter pain relief pills.

However, no matter what I resorted to using, it was not taking care of the root cause.

I was feeling helpless
and
I was feeling hopeless
because nothing else I did was working.

Thankfully, I was fortunate enough to meet Pat, Diane, and Carroll who shared what I call the Miracle patches with me.

Because these awesome women are very kind, generous, and thoughtful beings, they invited my family, me, and other people to a patching party/event at Vito's restaurant.

At that time I was dealing with a terrible migraine headache and I urged my husband JC to go to the patching event on June 22, 2023.

When we arrived they asked us if we had any Pain.

I immediately raised my hand along with all of the other people at the event who were also suffering with other types of agonizing pain.

I was asked to rate my pain from 1 to 10, with 10 being the most extreme level of pain.

The migraine pain I was suffering with was easily around level 10.

So I ordered some coffee which is one of the many things I would resort to when dealing with a migraine.

These wonderful women informed us that;

- We can wear the patches 12 hours on and 12 hours off.
- It is important to be well hydrated.
- Encouraged us to keep track of our progress via the 1 page Health Tracker.
- **That in order to help Activate, Regenerate, Repair, Rejuvenate, and Renew your body at a cellular level, it is best to use the patches everyday similar to a daily vitamin.**
- These patches are Non-Transdermal meaning that nothing is going to transfer into our bodies.
- Being Consistent is incredibly important.
- There are **No Contraindications** meaning that the patches do not interfere with any medications or anything else that we may be using.
- NO Chemicals
- NO Drugs
- NO Hormones
- NO Steroids
- NO Stimulants
- NO Side Effects

Various people shared their Remarkable Real Life Experiences with all of us.

As I heard various people share their Remarkable Life Changing stories, tears of joy began to flow down my face.

I finally had real hope that these patches can help us experience the wellness we have been missing.

Pat then placed a tan patch on the left temple of my head, and a white patch on the right temple of my head that together help to get rid of pain fast.

Pat also placed **a different patch on the back of my neck that is meant to help Activate, Regenerate, Repair, Rejuvenate, and Renew my body at a cellular level.**

Both me and my husband ended up being pleasantly surprised that the migraine headache pain was completely gone in about 5 minutes after putting on the patches.

I was amazed that these patches work so fast.

The patches are very fast and effective at providing pain relief.

I did not even need to drink any of the coffee I had ordered.

We also had friends that came with us who experienced significant pain relief.

I am beyond grateful to these wonderful women who took the time and chance to share this Life Changing Phototherapy with me.

We could not wait to get a set of patches so that we can share them with as many people as possible.

I continue to use the patches everyday and I am joyful to say that I no longer experience migraine headaches anymore.

I see the patches as a tool that allows our body to operate at the most optimal level.

The patches are part of a Health, Wealth, & Wellness Lifestyle.

BEFORE & AFTER

THE POWER OF THE PATCH!

Consistency is the Key

HOW THE PATCHES WORK?

A simple story of how our Patented Patches work.

When you're in the sun, the light from the sun signals the body to increase Vitamin D production.

Our patented patches don't need the sun because our bodies also emit light which is reflected off the patch and back into our tissue.

The organic crystals in the patch change the wavelength of the light in a process called photo-biomodulation = Light making change in the body.

GHK-Cu Copper Peptide: The Holy Grail of Healing

Dr. Loren Pickart discovered GHK and many of its biological effects with his original thesis is titled: "A TriPeptide From Human Serum" (June 1973)

GHK-Cu Copper Peptide activates Stem Cells for full body repair and regeneration!

GHK-Cu Copper Peptide is proven to ACTIVATE your stem cells, PRODUCE more stem cells, and RESET your stem cells to a younger healthier state.

Why is that important? Stem cells have the unique ability to change into any cell your body needs for repair and regeneration, just like when you were younger.

Our cells are constantly wearing out, forcing our body to work around the clock to make new and healthy cells. Your activated younger stem cells turn those old cells young and healthy again! In fact, within 24 hours, GHK-Cu Copper Peptide resets 4,000 genes to a younger, healthier state.

As we age, we produce less and less stem cells, slowing down our body's ability to repair itself. By age 35 we have lost 50% of our stem cell activity. By age 65 we have lost almost all our stem cell activity. When we activate our body with these younger pluripotent stem cells, they have the unique ability to turn into whatever cell the body needs for repair.

Your new stem cell army is now activated! Even if you don't immediately feel the effects, rest assured your army of stem cells is now hard at work repairing your most critical issues first before moving on to something you do feel.
